

## CSCI 3308 Milestone 2

**Team Number:** 08

**Team Name:** Team T33am

**Team Members:** Sam Basile, Maya Greenstein, Jordan Anderson, Zhanchao Yang, Max Page

**Application Name:** Draw Chat™

### Project Features List

- **Drawing**  
Draw Chat will allow users to create drawings using the touchscreen on their phone or the cursor on their computer.
- **Messaging/Group Chat**  
Draw Chat games will be integrated with multiple users in a chat style interface where one user will be the 'drawer' and send their drawing to the others.
- **Single Sign On**  
Draw Chat will not support account based playing, but similar to Kahoot, each game will have a 'game code' and users will be able to join the game using the code and a temporary username.
- **Score Counter/Timer**  
Draw Chat will increment users' scores based on the time it takes them to guess the correct answer, or if they get it at all.
- **Guesser**  
When users input their guesses, Draw Chat will be able to know if they are correct or not and respond accordingly.

## Requirements

ID	Requirement	Motivation	Verification
R1	Users shall be able to make drawings	This is an integral part of our basis: 'Pictionary	Join a group as a user and draw
R1.1	User shall be able to join a group and be assigned as a 'drawer'	The game should have a way to determine who is drawing	Join a group, check if 'drawer' designation is assigned
R1.2	User shall be able to draw until a correct guess is recorded or the timer runs out	The game should have an end	Run a game, test if drawing stops after a correct guess, and a timer ending
R2	Users shall be able to see groupmates drawings	Users should have some basis for their guesses	Join a group, see if a drawing appears
R3	Users shall be able to guess what is being drawn	This is an integral part of our basis: 'Pictionary	Join a group, enter a guess
R3.1	User shall be able to join a group and be assigned as a 'guesser'	The game should have a way to determine who is guessing	Join a group, check if 'guesser' designation is assigned
R3.2	User shall be able to guess until a correct guess is recorded or the timer runs out	The game needs a way to determine when to end	Run a game, test if guessing stops after a correct guess, or a timer ends
R4	Users shall be notified and rewarded when a guess is correct	Rewards and recognition make games more fun	Run a game, guess correctly and see if notifications and rewards are given
R4.1	Users shall be able to log into a profile	Users should be able to keep track of their gameplay	Try logging into a profile, see if past games are listed

## Project Plan

Week:	10/4	10/11	10/18	10/25	11/1	11/8	11/15	11/22
Drawing								
Messaging								
Single Sign-On								
Score Counter/Timer								
Guesser								
Review/Test								

Developer for each feature:

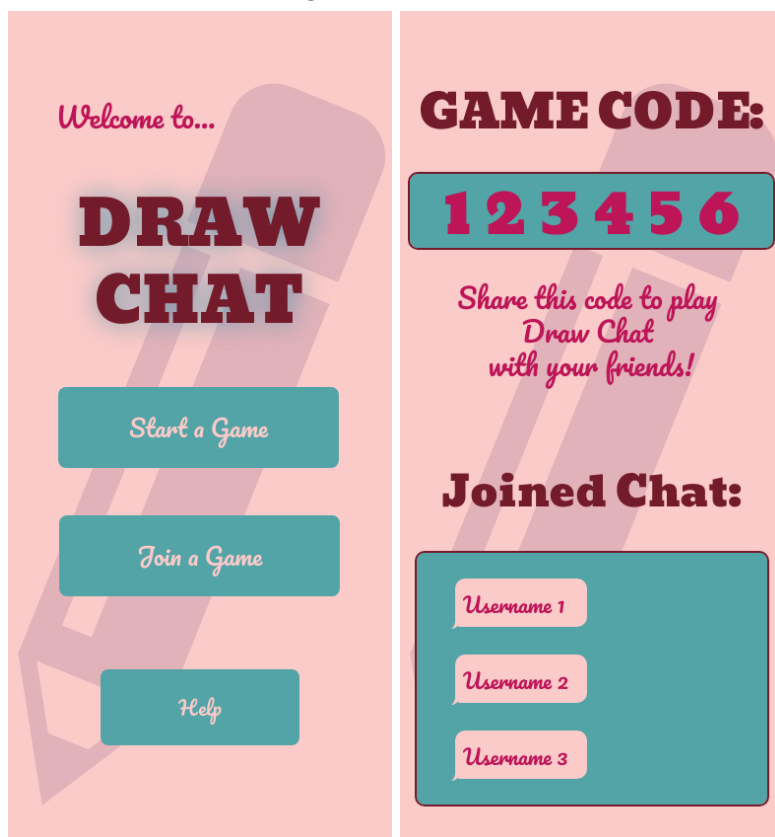

- Drawing: Zhanchao Yang, Jordan Anderson, Max Page, Sam Basile
- Messaging: Jordan Anderson, Max Page
- Single Sign-On: Zhanchao Yang, Maya Greenstein
- Score/Timer: Sam Basile, Maya Greenstein
- Guessing: Jordan Anderson, Max page
- Review/Test: All hands on deck

## Individual Contributions

Name	Github commit link	Contributions
Maya Greenstein	<a href="https://github.com/CU-CSCI-3308-Fall-2021/CSCI-3308-Fall21-015-08/commit/6ad9854c6eeccaacb66c8ea13b65c01e3cbe23ba">https://github.com/CU-CSCI-3308-Fall-2021/CSCI-3308-Fall21-015-08/commit/6ad9854c6eeccaacb66c8ea13b65c01e3cbe23ba</a>	> Designed some of wireframe > Front-end and database research
Sam Basile	<a href="#">Diagram Commit</a> <a href="#">Research Commit</a> (all research, whole group did this)	Front-end design research Made a basic lifecycle diagram
Max Page	<a href="https://github.com/CU-CSCI-3308-Fall-2021/CSCI-3308-Fall21-015-08/commit/0ce589b56b2829b4be09e21557dd0b8c3e6d097c">https://github.com/CU-CSCI-3308-Fall-2021/CSCI-3308-Fall21-015-08/commit/0ce589b56b2829b4be09e21557dd0b8c3e6d097c</a>	Back end design research Requirements

Jordan Anderson		Back-end design research
Zhanchao Yang	<a href="https://github.com/CU-CSCI-3308-Fall-2021/CSCI-3308-Fall21-015-08/commit/885c3ccb8356adcbf12ad038136355652b15c6d">https://github.com/CU-CSCI-3308-Fall-2021/CSCI-3308-Fall21-015-08/commit/885c3ccb8356adcbf12ad038136355652b15c6d</a>	Integration research
